Nova Southeastern University — 2008 - 2010
Masters of Business Administration

Miami International University of Art & Design — 2002 - 2006
Bachelor of Fine Arts in Graphic Design

EXPERIENCE

PowerMoves Inc | New York, NY — 2021 - Present
Working with the company's creative team as their Generalist Designer, creating content in mediums such as print, digital, signage, and web. During this time I've published over 100 videos on Youtube, designed and developed the company's web presence for mentoring and speakership.

Responsive Auto Insurance Company | Fort Lauderdale, Fl — 2015 - 2018
I worked here as a full-time contractor, as their Designer for their in-house development team, to redesign their Policy Administration and Servicing (PAS) system from back-end to their front-end user interface. I reviewed existing wire-frames, collaborated with cross-functional departments, and communicated with stakeholders to identity problems. Redefined the wire-frames, workflow and design, based on findings from discovery to the successful launch.

The Brandbiz Creative Studio | Orlando, Fl — 2012 - Present
Over the span of my career I've been working on my creative brand to market and provide services to clients in various different industries including Health Care, Auto Insurance, Non-profit, Government Municipalities, focusing on Web Design & Development, and Digital Design.

TigerDirect | Miami, Fl — 2010 - 2012
I worked here right out of grad school as an e-commerce web designer and front-end developer where created, banner ads, landing pages, micro-sites, and emails, to support the marketing department with vendor product campaigns and sales promotions.
